These results are based on responses from 2,228 Americans collected between January 19-22 via the Premise smartphone application. Premise randomly sampled its opt-in panel members, stratified on Age, Gender, Region and Education, based on the 2019 American Community Survey (ACS). The results are weighted by Age, Gender, Region and Education benchmarked against the 2019 ACS estimates. Respondents were compensated for their completion of the survey through the Premise app.

These results are based on responses from 2,228 Americans collected between January 19-22 via the Premise smartphone application. Premise randomly sampled its opt-in panel members, stratified on Age, Gender, Region and Education, based on the 2019 American Community Survey (ACS). The results are weighted by Age, Gender, Region and Education benchmarked against the 2019 ACS estimates. Respondents were compensated for their completion of the survey through the Premise app.
